

## Online, Virtual Interior Design - how does it work?

Welcome to Jil Sonia Interior Designs!

We are a full scale residential interior design firm providing virtual interior design across Canada.

Here's what we need from you to create a beautiful home you'll love!

**3 simple steps** to start your project:

1. **Questionnaire:** First, I get to know you and how I can help. Please complete our Interior Design Consultation form. This way we can provide you with the perfect look - while staying within your style & budget.
2. **Photos:** Please include photos of your room, taken during daylight in the horizontal  mode without a flash. Don't forget photos of items you want to keep i.e., sofas, pillows, rugs, art; as well as dimension of the items, so I can incorporate these pieces into your design. Share any inspiration photos you have.
3. **Measurements:** we need rough measurements of each room that you would like designed. Please show the areas of any doors in windows.

Then, you relax & we get to work!
